

Beyond today's standards.

What if you could improve the economy just by changing your oil?

Better efficiency. Better outlook.

Downtime is the enemy of efficiency. Choosing an engine oil that can make extended drain intervals possible and longer like-new engine performance a reality can mean you get more of what you really need – uptime. And that's always good for the bottom line.

DURON™ UHP outperforms the most stringent OEM standards.

Cam wear. Piston cleanliness. Cold cranking. Shear stability. DURON UHP not only meets and exceeds ACEA specifications, it exceeds major European OEM standards, by as much as 50%.*

See the proof for yourself at DuronUHP.eu

* Based on OM 646 LA and OM 501 LA engine tests.
